Designer: Dylan Desmarais
Creative Director: Emily Hu

Feedback:
- Adaptations:
    - hone in on just a few
    - add images/visual interest
- Go with Mockup A
    - Mockup B has a less clear grid structure
    - Mockup A with a few adjustments
- Add footer
- character list
    - seems randomly placed
    - how can people tell it's a link?
        - can consider type treatment
    - consider where to put nav
        - top or left
        - don't keep it on right because it's hard to tell that it is as nav
- I like type choice
    - can try out sans serif as body text; easier to read on web
- grid
    - image height different from text makes it look less consistent
- watch out for margin of elements
    - make sure they aren't too close
- background
    - fights with text in some areas
    - consider lowering opacity/contrast
- can consider in-page links; one long page of content
- too much empty space at top
